031 The Biased Read

Perspective Fieldbook · https://kb.jeffreysummers.com/docs/031-the-biased-read-2/

The Demand

Before you trust your read of your own building tomorrow, name which bias might be shaping it — are you favoring what you already like, confirming what you expected, blaming outside forces for problems that are yours, weighting last night too heavily, or letting one strength blind you to a real weakness? Pick the one most likely operating on you right now and check it against reality before you act.

The Work

Rate how strongly each bias is currently shaping your read of your own building — 1 (not present) to 5 (driving decisions):
Affinity Bias — favoring what's familiar
