066 Its The Vision Thing

Perspective Fieldbook · https://kb.jeffreysummers.com/docs/066-its-the-vision-thing-2/

The Demand

Run the ten targets against one significant decision you are currently facing. Name the gaps in your answers — those are the gaps in your sight. Fill them before the gate fires.

The Work

Name the decision:

Forward — what does the MDV say about this decision:

Present — what is the operation actually producing that this decision will affect:

Past — what did the last similar decision produce:

Lateral — what are the people across the operation seeing that you might not:

Vertical — what does the cast see that has not reached you:

Time — what does this decision look like at peak pressure, not at planning-table calm:

Self — what assumption are you bringing that you have not examined:

Cast — what does the cast see about this that has not made it to you:

Guest — what will the Guest experience as a result:

Orbit — who outside the building will this decision touch:

Where are the gaps — what sight was missing before you ran this:
